Public benefits

What are the direct benefits flowing from your organisation's purposes? The direct benefits that flow from the purposes include improved health outcomes and symptom relief for people suffering from MSA. Improved education of healthcare professionals, increase education, information and support to those affected by MSA, including families and carers and improving awareness and understanding of MSA to the general public. How can these benefits identified above be demonstrated? These benefits will be evidenced through regular client health and quality of life assessments; client and carer feedback and health professional feedback. Is there any harm arising from any of the purposes? No. Who are the charity's beneficiaries? Persons diagnosed with multiple system atrophy ('MSA'), their families and carers, healthcare professionals and the general public Is there any private benefit flowing from any of the purposes? No. ... [\[more\]](#)

What your organisation does

Assisting persons diagnosed with MSA to maintain and improve their health by providing comfort and support to those diagnosed with MSA along with their carers and families; The prevention of and relief from sickness, disease or human suffering, in particular in cases related to MSA; The promotion of public health, especially in relation to MSA and providing information and support to those affected by MSA; The education of medical practitioners to better help them understand MSA; The promotion of research into causes, diagnosis and treatment of MSA and working with organisations which support those affected by MSA, including carers and families. ...
